Dear Sisters Friends, and Lay Collaborators,

As Our 15th General chapter directions urge us... *“Awakened to the cry of the Trinity through the pain and suffering of Mother Earth and our sisters and brothers at the margins, ecological conversion and sustainable living become our ethical imperative”.*

This calls us to a deep awareness of the interconnectedness of all life, human and non-human, recognizing that the suffering of the Earth and marginalized communities is a cry from the Trinity itself. It challenges us to move beyond passive concern and embrace an ecological conversion—a transformation of heart and mind that compels us to live sustainably and justly. Our ethical responsibility is not optional but essential, requiring us to align our choices with the well-being of all creation and those most affected by environmental and social injustices. True faith demands action, and in responding to this call, we participate in the healing of the world.

We are grateful to the provinces and regions that have been participating in the Laudato Si Action Plan since 2022. We urge you to practice more ardently, the Laudato Si Action plan at personal, community and congregational levels.

Sr. Miriam Altenhofen, SSpS
Congregational Leader
